Address the Human Element

With human error becoming the weak link in your IT defenses, training is paramount. A policy paper or lecture won't cut it. We've got a Netflix-style curriculum that will encourage binging and retention.

Why Choose Overwatch Aware

✓ Animated Episodes

We produce 3-4 minute-long Micro-Learning Episodes that educate your users on the latest threats and breaches. NINJIO releases a new episode every month keeping your team up-to-date.

✓ Emotionally Engage Viewers

We emotionally connect with your user in the first scene of every episode. This keeps your users engaged until the very end of the episode, increasing retention and ulimately leading to fewer breaches.

✓ Real Attacks

Every episode is based on or inspired by a real company who has suffered a significant breach. We focus on one attack vector so that we don't overwhelm your users with technical terms.

✓ Hollywood Writing

Every episode is written by a member of the Writer's Guild of America, who has a combined 72 episodes of CSI:NY and Hawaii 5-0 that he has written, produced, or done both.

✓ All In The Family

Each subscription* comes with Friends and Family Use Rights whereby each employee can add up to seven friends and family members to receive our episodes at no additional cost.

✓ Gamified Leaderboard

Competition encourages engagement. Individuals who complete episodes quickly and pass the quiz the first time earn more points & secure a top spot on the leaderboard.
